

# Curious as to why we've won 10 National Awards from the ASBA?

It's simply because we consistently build the **finest** facilities in the industry, and our warranties back that up.

With warranties offered up to **15 years**, we're more than confident that any facility we build will **last**, making sure the taxpayer, fundraiser, owner, and end user all get a full return on their investment.

We are one of, if not the only track builders that specializes in all four major components of track building, including: the sub-base, drainage, asphalt paving, and the surface. Thanks to being vertically integrated, we can control the entire process from beginning to end. This allows us to focus on creating a high quality facility that creates long-term value for anyone that uses it.

American Athletic Track and Turf provides the *maximum long-term value* - please contact us today!

Find out why these high profile institutions feature **American Athletic Track and Turf** for their sports facility construction:

John Hopkins University  
College of New Jersey  
Rowan University  
Temple University  
Villanova University  
West Chester University

# The Science Below the Surface

A running track, artificial and natural turf field, or multi-sport court is only as good as its substructure. At American Athletic **Track** and **Turf**, Our core focus has always been on creating long-term value for our clients, by providing them with facilities that will *last*.

Thanks to this belief in creating long-term value, we build facilities with the owner in mind, but also the athlete, ensuring each athlete gets a top-level facility that will provide the maximum durability, longevity, and performance.

American Athletic Track and Turf has ASBA Certified Track Builders and Certified Field Builders on Staff.

We bring 150+ combined years of experience in asphalt pavement and sports facility construction.

We use multiple pieces of state-of-the-art laser-controlled equipment to achieve the highest levels of precision and tolerance in the industry.

# Quality from Start to Finish

American Athletic Track and Turf builds superior quality into every track, court, and field, producing maximum value for and maximum protection of taxpayer's and owners' investments. With start-to-finish control of your project, we ensure that costs, timing, and quality are all exactly where they should be.

## Performance

We use state-of-the-art laser-controlled equipment to achieve the highest levels of precision and consistency, resulting in optimal performance

## Longevity

Our attention to quality construction results in sports facilities and surfaces that achieve the longest life cycles in the industry.

## Aesthetics

Our tracks, courts, and fields are designed for beauty as well as for usability.

## Safety

Our precision surfaces deliver optimal uniformity, minimizing hard, soft, and uneven areas that can result in injury to athletes.

## Value

We maximize safety, performance, and longevity for owners, investors, and athletes.
